Best Answer: The much touted compound resveratrol shows some promise as a future treatment for type 2 diabetes, but drinking wine or taking resveratrol supplements isnâ€™t likely to do diabetic people much good, researchers say. Resveratrol, found in red wine, was found to lower blood sugar levels and. Health Benefits of Wine - WebMD Indeed, the year 2000 was a very good year for wine makers -- and not just because it brought a bumper crop of cabernets, zinfandels, and chardonnays. Evidence of the far-reaching health benefits.

How to Make Herbal Wine - Mother Earth Living The best wines use specialty yeast strains cultivated over centuries by vintners and available at home-brewing shops. Some folks rely on wild yeasts naturally present in the air, but this is a risky approach because exposing wine to air usually attracts spoilage microbes (especially vinegar-producing Acetobacter) in much greater proportions than alcohol-producing yeasts.
