Wind Cave NP - Official Site Bison, elk, and other wildlife roam the rolling prairie grasslands and forested hillsides of one of America's oldest national parks. Below the remnant island of intact prairie sits Wind Cave, one of the longest and most complex caves in the world. Wind Cave National Park - Wikipedia Wind Cave National Park is an American national park located 10 miles (16 km) north of the town of Hot Springs in Western South Dakota. Established in 1903 by President Theodore Roosevelt, it was the seventh U.S. National Park and the first cave to be designated a national park anywhere in the world. Wind Cave | National Park Foundation However, the first recorded finding of Wind Cave was in 1881. Jesse and Tom Bingham were attracted to the cave by a whistling noise. As the story goes, wind was blowing out of the cave entrance with such force that it blew off Tom's hat.

Wind Cave - National Parks Conservation Association One of the country's oldest national parks, Wind Cave combines rare mineral wonders underground with beautiful mixed-prairie habitat aboveground. Take a ranger-led tour to explore the unusual formations below the Earth's surface, including cave walls that look like frost, textured honeycombs and even popcorn. Wind Cave National Park - TripAdvisor Really enjoyed wind cave national park, it's a great place above and below the ground, we took the natural entrance tour it was brilliant, fantastic box work and the Ranger was very enthusiastic and gave a great tour. Wind Cave National Park - National Geographic Wind Cave National Park in South Dakota has a rich wilderness aboveground that includes bison, prairie dogs, and antelope and underground, one of the longest caves in the world.
